The following is an examiner's statement of reasons for allowance:

Applicants' amendments and remarks overcomes the 112 rejections of the previous action. The uses recited in claim 3 have been shown to be reasonably correlated to IL-8 inhibition based on the references of record and Hay newly cited by applicants. Note that Li and Matsukawa have been previously cited by the examiner. The 103 rejection is also withdrawn as the closest species to the one pointed out in Jin has been deleted from the claims. The sole species remaining in the claim differs in 2 respects from that exemplified in Jin and in the absence of any species directed to methylated piperazines as well as fluorinated phenyls, the examiner concurs that there is nothing in Jin particularly pointing to the structural makeup of the one species solely claimed herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
